

CAM-2064

IR spotlight, 60 m range

Features

Sturdy construction for outdoors

Patented hexagonal sensor spherical design with greater accuracy in ambient light responses and improved accuracy of automatic light control

The aluminum housing provides high thermal conductivity to improve the property of heat dispersion

Tempered glass panel

Wide circular edge of silica gel ensures excellent waterproof performance

Includes adjustable lira stand

2 year warranty

REFERENCE	SAM-2064
Range	60 meters
Aperture	90°
LEDs	4LEDs IR dot-matrix Epistar
Wavelength	850nm
Power factor	0,9 ~ 0,98
Power supply	85V ~ 265V AC /24W
Working temperature	-40°C ~ +55°C
Installation	Outdoor (IP66) / Indoor
Dimensions/weight	84 x 84 x 80 mm / 0,45 kg
