

## KEY FEATURES

- POE Injector
- Inject a 46-52V to UTP cable to Cat.5 or higher
- IEEE 802.3af, 802.3 , 802.3u for 10 /100 Base-Tx

# CAM-1534

POE INJECTOR . INJECT A 46-52V TO UTP CABLE TO CAT5 OR HIGHER

- POE Injector
- Inject a 46-52V to UTP cable to Cat.5 or higher
- The injector module has two inputs: the electric current (including power supply) and data (LAN connection)
- The output carries data and power in one network cable
- At the other end of the cable is required a splitter (Splitter PoE) or peripheral network that supports power over PoE compatible with the IEEE 802.3af.
- IEEE 802.3af, 802.3, 802.3u for 10/100 Base-Tx.
